The charts do not print. But online, clicking the bar charts drills down to another level of degree requirement information.

The system automatically runs the audit for the program in which you are currently enrolled, and uses your entry catalog year for the program requirements.

Doctoral Program Requirements Example

The 96-hour program is the default doctoral program, if both a 96 and a 64-hour option exist in the major. Students who have completed a master's elsewhere should be in the 64-hour program. If this is incorrect, contact your department.

This is the number of hours that are counting toward the degree requirements, based on the Academic Catalog for the student's catalog year.

This NOTE indicates the student was granted an exception by petitioning the department.

Each requirement shows how courses taken or enrolled in, apply to completing the requirement. If this seems incorrect, contact your department.

Department specific text

All subgroups must be listed as Earned (not Needs), before all requirements will show as being met.

Some courses are limited in the number of hours that can count toward the degree. After this student earns 48 hours of ANSC 599, the hours here will continue to be included in the lower section. However, they will no longer show at the top as counting toward the degree.

Non-course related requirements are marked complete at the request of the department. If completion is not indicated, contact your department.

This is the number of hours that are counting toward the degree requirements, based on the Academic Catalog.

Each requirement shows how courses taken, or enrolled in, apply to completing the requirement. If this seems incorrect, contact your department.

The thesis option is the default program, if both a thesis and a non-thesis option exist in the major. If this is not correct, consult with your department to change the audit to the non-thesis option.

Non-course related requirements are tracked by your department. If they are listed in your audit as incomplete but are not, contact your department for to update your audit.

All subgroups must be listed as Earned (not Needs), before all requirements will show as being met.

This student took 14 hours of thesis research, but only 8 hours are allowed to count toward the degree (as a max indicated in the Academic Catalog).

MASTER'S WITH THESIS

Students must complete the required coursework plus a master's thesis and must deposit the thesis with the Graduate College.

Doctoral Exam Requirements Example

The √ symbol means the requirement is met.

✔ **PRELIMINARY EXAMINATION**
Students must be enrolled for the entire academic term in which the preliminary exam occurs.

If more than five years elapse between a doctoral student's Prelim and Final examinations, the student is required to pass a second Prelim.

PRELIM PASSED 9-15-2018

When Preliminary and Final exam results are sent to the Graduate College, audits are updated with the date the exam was taken.

✘ **FINAL DOCTORAL EXAMINATION**
Students must be enrolled for the entire academic term in which the final exam occurs.

Students must deposit their dissertation within three semesters (including the current semester) of taking the Final exam.

The X symbol means the requirement is not met.

Graduate College rules about exam deadlines are included, but even if the 5 years have passed, the audit doesn't revert this requirement to incomplete. The same is true for the final deposit deadline.

Not all programs have Other Requirements. When they do, they are usually related to number of hours at the 500 level, number or hours in the department/program or a combination of those.

The Graduate College Requirements are the same for all programs.

The Graduate Total Hours includes all hours taken as a graduate student, even if they don't count toward degree completion.

The Graduate Total GPA includes all courses taken as a graduate student, even if they don't count toward degree completion.

These are all the courses a student took while enrolled as a graduate student (including undergrad courses).

The key at the bottom of the audit defines these characters.

If a course shows the >- symbol, credit has been deducted. Contact your department with questions
