The charts do not print. But online, clicking the bar charts drills down to another level of degree requirement information.

Not all degree requirements are complete. If they were, one of these messages would show:

** ALL COURSE REQUIREMENTS IDENTIFIED BELOW HAVE BEEN MET ****

→ ALL COURSE REQUIREMENTS COMPLETE USING IN PROGRESS COURSES ←

The audit is a tool, and the departmental certification is the final decision about whether a student is ready to graduate.

The system automatically runs the audit for the program in which you are currently enrolled, and uses your entry catalog year for the program requirements.

This message shows after you add your name to the degree list.

As soon as you enroll in a course, the audit assumes you have completed and passed the course.

Upcoming deadlines are included here.
In-progress courses are listed here.

**NOTE:** The DFR grade appears on audits as DF.

This section lists grades that need to be changed before a student can graduate. Your department changes the 599 grades after you deposit your thesis.

If you took the English Placement Test (EPT), your scores and the required/recommended courses are found here.

**ESL COURSES REQUIRED BASED ON EPT SCORES**

1) Placement score for writing portion is 5

   WARNING: School of Integrative Sciences & Arts requires courses for SRQ.

   SELECT FROM: ESL 511 & 512, 521 & 522

   PLACEMENT SCORE FOR ORAL PORTION IS 5

   No courses are required.

2) English as a Second Language Additional Coursework

If you took ESL courses that were not required/recommended as a result of the EPT, they are listed here.
The 96-hour program is the default doctoral program, if both a 96 and a 64-hour option exist in the major. Students who have completed a master’s elsewhere should be in the 64-hour program. If this is incorrect, contact your department.

This is the number of hours that are counting toward the degree requirements, based on the Academic Catalog for the student’s catalog year.

Each requirement shows how courses taken or enrolled in, apply to completing the requirement. If this seems incorrect, contact your department.

All subgroups must be listed as Earned (not Needs), before all requirements will show as being met.

Some courses are limited in the number of hours that can count toward the degree. After this student earns 48 hours of ANSC 599, the hours here will continue to be included in the lower section. However, they will no longer show at the top as counting toward the degree.

Non-course related requirements are marked complete at the request of the department. If completion is not indicated, contact your department.

This NOTE indicates the student was granted an exception by petitioning the department.
The thesis option is the default program, if both a thesis and a non-thesis option exist in the major. If this is not correct, consult with your department to change the audit to the non-thesis option.

Each requirement shows how courses taken, or enrolled in, apply to completing the requirement. If this seems incorrect, contact your department.

This student took 14 hours of thesis research, but only 8 hours are allowed to count toward the degree (as a max indicated in the Academic Catalog).

Non-course related requirements are tracked by your department. If they are listed in your audit as incomplete but are not, contact your department for to update your audit.

All subgroups must be listed as Earned (not Needs), before all requirements will show as being met.
The √ symbol means the requirement is met.

When Preliminary and Final exam results are sent to the Graduate College, audits are updated with the date the exam was taken.

The X symbol means the requirement is not met.

Doctoral Exam Requirements Example

---

**PRELIMINARY EXAMINATION**
Students must be enrolled for the entire academic term in which the preliminary exam occurs.

If more than five years elapse between a doctoral student’s Prelim and Final examinations, the student is required to pass a second Prelim.

PRELIM PASSED 9-15-2018

---

**FINAL DOCTORAL EXAMINATION**
Students must be enrolled for the entire academic term in which the final exam occurs.

Students must deposit their dissertation within three semesters (including the current semester) of taking the Final exam.

---

Graduate College rules about exam deadlines are included, but even if the 5 years have passed, the audit doesn’t revert this requirement to incomplete. The same is true for the final deposit deadline.
The Graduate College Requirements are the same for all programs.

Not all programs have Other Requirements. When they do, they are usually related to number of hours at the 500 level, number or hours in the department/program or a combination of those.

The Graduate Total GPA includes all courses taken as a graduate student, even if they don’t count toward degree completion.

These are all the courses a student took while enrolled as a graduate student (including undergrad courses).

If a course shows the >- symbol, credit has been deducted. Contact your department with questions.

The key at the bottom of the audit defines these characters.
If any manual change has been made to the audit, a message will show in the Exception Summary. Common examples are course substitutions, exam results, and the removal of courses applied to another degree.
