## COST RECOVERY AND SELF-SUPPORTING PROGRAMS

---

These programs have unique tuition and fee waiver requirements and tuition schedules, and so are an addendum to the [Tuition Waiver Policy](#).

**Cost recovery programs are those that:**

- are allocated no state funds and must generate all costs through tuition and fees,
- are approved by the Board of Trustees, and
- are exempt from all tuition and fee waiver programs, but must honor statutory waivers.

**Self-supporting programs are those that:**

- receive no direct state subsidy (general revenue funds),
- may depend on a special Board of Trustees approved tuition rate to cover additional costs of developing and offering the program,
- are usually aimed at non-traditional audiences (e.g. professional, off-campus, online), and
- are exempt from all tuition and fee waiver programs, but must honor statutory waivers (information on statutory waivers can be found [here](#)).
